

ambridge®

Bridging  
the gap

# A trusted partner for over two decades

Ambridge was established over 20 years ago when its founders partnered to create a company dedicated to underwriting unique risks: a company that's truly responsive to client needs and that delivers on its promises.

Our work ethic and well-earned reputation for due diligence means we are more than just an underwriter to our clients. We are a trusted partner.

An aerial photograph of a rowing team on a body of water. The team consists of eight rowers in a long, narrow boat, moving from left to right. The water is a deep blue-green color, and the rowers are leaving a white wake behind them. The boat is red and black.

It's not just  
what we do;

it's how we do it

From day one, our focus has been on providing responsive underwriting solutions for a wide variety of specialty insurance exposures.

We're known for going the extra mile to provide solutions in a timely manner. Our true priority is meeting our clients' expectations.

## We focus on the details

We believe it's critical to do our homework upfront. We underwrite thoroughly to develop creative solutions for clients' risks and exposures.

Our policies are written in a manner that provides our insureds with clarity and transparency regarding what to expect in the event of a claim.

# Our people set us apart

Our team consists of over 150 underwriting, legal, financial, actuarial and tax experts. This mosaic of professional backgrounds means we will support our clients with a collective pool of diverse capabilities to meet their individual needs.

Our people are experts in their respective fields. Whatever their specialty, they're always thoughtful, diligent team players.

Our philosophy has remained the same from day one until now – we pull together to deliver to our clients.

# Customized, responsive underwriting for complex risks

Our binding authorities provide our clients access to significant, highly rated insurance capacity with the benefit of a streamlined and efficient claims process.

**The types of cover we offer are:**

## **Management and Professional Liability**

- Casualty Treaty

# Independently operated, owned by Brit

We operate as a single global MGA. In 2021 Ambridge LLC wrote over \$500 million of premium in the United States. Our international affiliates, Ambridge Europe Limited (London, UK) and Ambridge Europe GmbH & Co. KG (Frankfurt, Germany), wrote over \$100 million between them.

In 2019, we were acquired by Brit Insurance Holdings Limited, giving us the financial security of their backing and of Lloyd's.
